

Kakadu

Retractable Flyscreen Door

DESIGNED TO BE INSTALLED INSIDE DOOR FRAMES

Perfect for protecting bi-fold and sliding doorways from insects while maintaining outdoor views

Neatly retracting roller flyscreen protects doorways from insects

Simple slide to open operation with magnetic closure

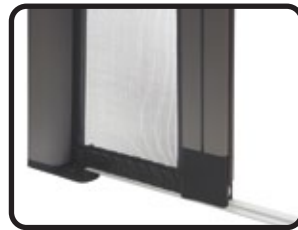

Features

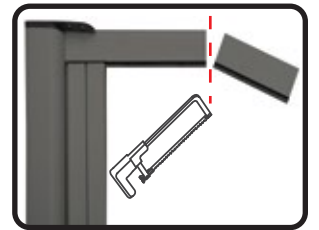

Durable powder coated aluminium cassette

Easy hand operation with spring loaded retraction

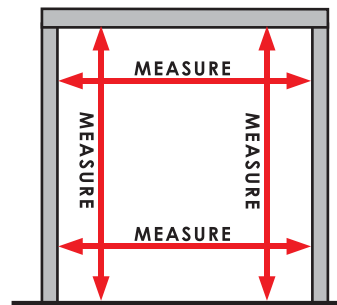

Slimline base track with smooth running link chain

Can be shortened in width for installation into doorways

How To Measure

Use a metal tape measure.

Take multiple vertical and horizontal measurements inside door frame to ensure area is square.

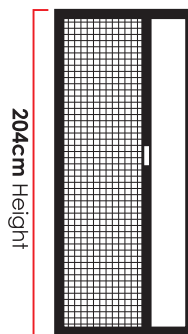

Doors can be reduced in width to suit smaller than standard openings.

See full detailed instructions in the pack.
